INDEX TO VOLUME 42

NOVEMBER 1981 THROUGH OCTOBER 1982—872 PAGES
HOW TO USE THIS INDEX: Most feature material has been indexed three or more times—once by the title under which it was published, again under the author's last name, and finally under one or more of the subject categories or railroads. Photographs standing alone, as in the "News" section, "Railroad News Photos," "Photo Section," or in departments such as "Railway Post Office" or "Second Section," are indexed (usually under the railroad), but photographs within a single-subject feature are not usually separately indexed. Photographs in multi-subject features are indexed by railroad. News items are indexed under the railroad and/or category. References to people, or quotes by them, are indexed under the railroad or company with which they are easily identified; if there is no such easy identification, they are indexed under the person's last name. "Quotes of the Month" now has a separate indexing as a cross-reference. The following are indexed only under the category: Maps, Mergers, Museums, Profiles (of track), Radio Frequencies, Rosters (of locomotives and equipment), Statistics, and Yard Diagrams. Items from foreign countries (other than the United States and Canada) are indexed under the country. Numerals are indexed in alphabetical order as if spelled out; "article" words (a, an, the) are omitted when alphabetizing an index.
